

Thanks for your interest in rNetwork! Here are the top 10 key points as we get ready to introduce rNetwork to the world.

- 1) rNetwork is located in Utah and has 5 creators, Troy Muhlstein, Richard Smith, Kevin Wiscombe, Roger Taylor and Trent Walker.
- 2) The Revv Account and Revv App are the new, decentralized way to save, manage and make money.
- 3) It will be the largest Discount, Reward and Banking offering on the planet
- 4) The Revv Account is not a new bank. They have been operating for years. They are just now adding these new services and getting ready for major expansion.
- 5) It will be accessed through an app that is available on both Android and iOS devices
- 6) It will be an all in one account for banking, investment and savings
- 7) It will have a travel portal second to none!
- 8) It will have 3 second transfers from account to account available immediately since there is no need to transfer the funds back to a bank account. The Revv Account IS the bank account. (but you can add a separate bank account if you want to do ACH transfers)
- 9) The Revv Account will have all banking services like checking, bill pay, debit card, loans, mortgages, etc.
- 10) rNetwork also offers a Rewards center where you can earn by doing all kinds of online activities like surveys, downloads and participating in offers.
- 11) The chartered member program will include major benefits including an affiliate program.

For those that are interested, the affiliate program will allow you to create a significant income by introducing people to rNetwork and showing them how to take advantage of the services and savings programs.

Feel free to add your friends and family to this group who would be interested in using these products as a customer or those that would also like to be a part of the affiliate program. We will continue to provide updates as we receive them.

Meet the Creators of "R" Network :)

Von Links nach Rechts:

Roger Taylor
Trent Walker
Richard Smith
Kevin Wiscombe
Troy Muehlstein

Jeder von ihnen hat eine beeindruckende Karriere und enormes
Fachwissen in ihren jeweiligen Bereichen!
